## Protect your holiday home before this winter's drain down

It is easy to be caught off guard by a sudden cold snap and even a small leak from a pipe can cause hundreds of pounds of damage. We would therefore like to take this opportunity to remind you of the importance of winterising your caravan during the winter months to protect your holiday home. Please speak to our dedicated aftersales department to arrange your winter drain down with Blue Anchor Leisure.

**We want to make sure you are covered by your insurance providers. Most insurers will not cover you unless you follow these steps**

### Mini Drain Down

For anytime that the parks are still open

- STEP 1** Turn your stopcock off
- STEP 2** Sinks and plugholes to be left unobstructed
- STEP 3** Ensure all water taps are left open/on, plugs are removed from plug holes, water is emptied from cistern and sinks/showers/bath

Blue Anchor Leisure strongly recommended that all holiday home owners book a professional drain down.
